GENERAL LAND USE CRITERIA

Apply, if marked below:
Described in Comprehensive Plan on pages 445-448

Environmental

E1 Flood Plains
E2 Steep Slope
E3 Historical & Archaeological Sites
E4 Soils
E5 Plant & Animal Life

Urban Services

U1 Roadway Capacity
U2 Electricity Supply
U3 Water Supply
U4 Stormwater Disposal
U5 Sanitary Sewage Disposal

Development Patterns

D1 Land-Use Intensity, Clusters and Buffers
D2 Land Use versus Street Function
D3 Intersection & Driveway Spacing
D4 Roadway Buffer Standards
D5 Lot Sizes & Proportions
D6 Residential Development
D7 Non-Residential Development
D8 Building Quality

Proposed Zone & Land Use Plan

The applicant is seeking an A-R Rural Agriculture zone. The subject property is located in a Rural Preference Plan Area, where rural farm residential uses are appropriate in general locations.

SPECIFIC LAND USE CRITERIA

(a) Large tracts with agricultural potential Each dwelling should be located on a separate, large, tract that has potential for productive agricultural use.

(b) Access to existing public road via private drive Each dwelling/tract should have access to an existing public road; public roads should not be created or extended to provide access. Access should be provided via private drives. Not more than two dwelling/tracts should share a single private drive where it connects with a public road.

Applicant’s Findings

The subject property is located within a rural agriculture area in Daviess County, Kentucky.

The subject property is bordered by Rural Agriculture zoning.

The subject property applicant proposed the changes of zoning to allow for a 10-acre farm division.

Planning Staff Review

The subject property is located in the 7101 block of Masonville-Habit Rd. Land use criteria applicable to this proposal are reviewed below.

GENERAL LAND USE CRITERIA

Environment

The Map of Important Farmlands compiled in 1976 by the U.S. Department of Agriculture Soil Conservation Service identifies the subject property as prime farmland. No other important environmental criteria apply to the subject property.

Urban Services

Electricity and water are available to the subject property. The site is currently served by an on-site septic system.
Development Patterns

The subject property is located within an area that is residential and agricultural in nature. A number of residential lots have been created in the area, with residences and lot frontages along Masonville-Habit Rd. The subject property is also situated with frontage along Masonville-Habit Rd and the owners have previously created four one-acre tracts along the road frontage within the R-1A Single-Family Residential zoning. The applicant wishes to create a 10-acre farm tract with 50’ of frontage on the existing roadway, leaving frontage along the existing road for additional one-acre or greater divisions. If the subject property retained the R-1A Single-Family Residential zoning classification, the applicant would not be able to create the 10-acre farm tract because it would be required to meet the regulations for lot divisions in the R-1A zone, which include a minimum of 100 feet of road frontage and a depth to width ratio not exceeding 3 to 1. The proposed 10-acre farm tract will encompass an existing residence that sits well back from the roadway.

SPECIFIC LAND USE CRITERIA

A-R Rural Agriculture is an appropriate zoning classification for the subject property. Adjoining property including property within the record tract containing the subject property, is currently zoned A-R Rural Agriculture. There is currently a residence on the A-R Rural Agriculture zoned portion of this tract. A private driveway that accesses Masonville-Habit Rd serves the residence. The subject property is designated as prime farmland. There is sufficient acreage on the entire tract to support agricultural production.

Planning Staff Recommendations

Staff recommends approval because the proposal is in compliance with the adopted Comprehensive Plan. This recommendation is made subject to the findings of fact that follow:

1. The subject property is located in a Rural Preference Plan Area, where rural farm residential uses are appropriate in general locations;

2. The subject property adjoins A-R Rural Agriculture zoning and uses;

3. The subject property is identified on the Map of Important Farmland, compiled in 1976 by the U.S. Department of Agriculture Soil Conservation as prime farmland; and

4. The proposed 10-acre farm division is large enough to support agricultural activity.
