locations.

"Nonresidential Development" (D7)

Building and lot patterns should conform to the criteria for
Area where Light Industrial uses are appropriate in general

270-687-8650

The subject property is located in a Business /Industrial Plan

The applicant is seeking an I-1 Light Industrial zone. The

Proposed Zone & Land Use Plan

The subject property is a 0.029 acre vacant tract zoned R-DT. The applicant proposes to consolidate the subject property with four surrounding properties that were rezoned to I-1 in 2016 creating one large tract for individual/mini-storage units.

This is a mixed use area consisting of professional/service, business, industrial and inner city residential zoning. To the west is a vacant tract zoned I-1 and owned by the applicant. To the south is a tract with utility equipment on it owned by the Q-Comm Corporation. The adjoining property to the north is zoned P-1 Professional/Service. The properties to the east are zoned R-4DT Inner City Residential.

W 4th Street is classified as a minor arterial roadway in this vicinity with a 60 foot building setback line, a 30 foot roadway buffer and a 500 foot access spacing standard. The access spacing standard cannot be met along W 4th Street, therefore; no access to W 4th Street shall be permitted. Once the tracts are consolidated, access shall be limited to Poplar Street only.

If the rezoning is approved, the applicant will be required to provide property perimeter screening where the subject property adjoins residentially zoned property consisting of a 10 foot wide landscape easement with a 6 foot tall solid wall or fence and 1 tree per every 40 feet of the boundary. Vehicle use area screening will be required where adjacent to the street right-of-way. All vehicular use areas are to be paved; any area of the site proposed to remain gravel will be required to comply with the outdoor screening requirements of the zoning ordinance including the installation of a 6’ tall solid wall or fence around the entire perimeter of the storage yard. Any proposed exterior lighting shall be directed away from adjacent residential properties.

A site plan or a development plan will be required demonstrating compliance with the zoning ordinance requirements including, but not limited to, parking, landscaping, building setbacks, access management and signage. The plan must be approved before any construction activity can take place on the property.

Specific Land Use Criteria
The applicant’s proposal is in compliance with the Comprehensive Plan. The proposed use conforms to the criteria for non-residential development. This proposal is a logical expansion of industrial zoning to the west. At 0.029 acres the proposal is not a significant increase in I-1 zoning in the vicinity.

Planning Staff Recommendations
The planning staff recommends approval subject to the condition and findings of fact that follow:

Condition:
No access shall be permitted to W 4th Street.

Findings of Fact:
1. Staff recommends approval because the proposal is in compliance with the community’s adopted Comprehensive Plan;
2. The subject property is located in a Business/Industrial Plan Area where Light Industrial uses are appropriate in general locations;
3. The proposed use conforms to the criteria for non-residential development; and,
4. The proposal is a logical expansion of I-1 Light Industrial zoning to the west; and
5. At 0.029 acres the proposal is not a significant increase in I-1 zoning in the vicinity.
