Required
Inspections
Checked
Below:

FOUNDATION	
<input type="checkbox"/> FOOTER	Footer inspection - Call OMPC before pouring concrete. Minimum 24" depth required. OMPC also checks building setbacks at this time. IMPORTANT: LOCATE PROPERTY PINS. Building setbacks are measured from PROPERTY LINES, NOT from the edge of the road or the street curb or other points.
<input type="checkbox"/> SLAB	HVAC Slab Inspection – Call OMPC before pouring
<input type="checkbox"/> Temporary electrical pole?	If a temporary electrical pole will be used on this job, please have the pole ready for inspection at the time of the footer inspection. A \$20 fee must be paid BEFORE the pole inspection is performed.

FRAMING	
<input type="checkbox"/> <u>WITH</u> Electrical Work	The electrical contractor will call OMPC for an electrical rough-in inspection. At this time, OMPC also will inspect the framing. Do not insulate or cover walls or ceilings before OMPC inspection.
<input type="checkbox"/> <u>WITHOUT</u> Electrical Work	The building contractor will call OMPC for a structural rough-in inspection. Do not insulate or cover walls or ceilings before inspection.

FINAL	
<input type="checkbox"/> <u>WITH</u> Electrical Work	The electrical contractor will call OMPC for a final electrical inspection. At this time, OMPC also will conduct a final building inspection.
<input type="checkbox"/> <u>WITHOUT</u> Electrical Work	The building contractor will call OMPC for a final building inspection.

Effective 1/1/2011
