Reasons for the Variance Request

Submit copy; two (2) copies if inside Whitesville. In the space at right or on an attached sheet, the applicant should give reasons for the requested variance, specifically addressing items 1 - 4 and A - C below, as well as any other pertinent considerations.

Considerations for Granting Variances

The Board of Adjustment has the power to hear and decide on applications for variances from dimensional terms of the Zoning Ordinance pertaining to the height, width, or location of structures, and the size of yards, open spaces and landscape areas. The Board **does not** have the power to grant a variance to permit a use of land, building, or structure that is not permitted by the Zoning Ordinance in the zone in question.

Before any variance is granted, the Board must find that the granting of the variance...

- 1. Will not adversely affect the public health, safety or welfare;
- 2. Will not alter the essential character of the general vicinity;
- 3. Will not cause a hazard or a nuisance to the public; and
- 4. Will not allow an unreasonable circumvention of the requirements of the Zoning Ordinance.

In making the above findings, the Board shall consider:

- A. Whether the requested variance arises from special circumstances which do not generally apply to land in the general vicinity, or in the same zone;
- B. Whether the strict application of the provisions of the Zoning Ordinance would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant; and
- C. Whether the circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.
